

WELCOME TO OCCUPATIONAL THERAPY

HOW WE ARE KEEPING STUDENTS SAFE AND HEALTHY

- Students will be seen one at a time while receiving in-person services in this office.
- All work surfaces, supplies and materials used during therapy will be cleaned and disinfected between students.
- Single use supplies will be discarded.
- Reusable student-specific items will be bagged and labeled with the student name.
- Visitors to this office will be asked to limit their movement to essential areas.
- Distribution and handling of materials or supplies will be limited to office personnel.
- Upon entry, all office visitors will wear a suitable mask covering mouth and nose.
- When students take a mask break, the therapist will use a mask and face shield during in-person services.
